Speedy Tower

The Speedy Tower is tough, efficient and versatile thanks to its foldable base and spun-rung ‘Duraclimb’ technology. Speedy provides a strong but lightweight option designed for regular use with no tools required simply, slot and lock into place. The folding base unit is easy to manoeuvre around on four lockable castors, or fold in half to fit through narrow doorways. The addition of guardrail and extension packs allow the system to be used on projects up to 7 metres.

Master Grinding Wheel 180 x 13 x 31.75mm 3CG60 K8V - with storage box

MASTER ABRASIVES

Ceramic Aluminium Oxide is an extremely tough and durable abrasive, producing wheels which stay sharper than standard Aluminium Oxide grades as the grains discard microscopic crystal during use, creating new grinding surfaces
Free cutting and with a much longer and more productive life, these wheels are suitable for a wide variety of applications, including centreless, micro-centric, surface, internal and tool and cutter grinding applications.
